Native or Bilingual proficiency

Interests

- Bicycling
- Arduino and IoT
- Brewing Coffee
- Origami

About Me

Analytical, detail oriented professional with 3+ years of extensive experience in Product Development and Design.

My Experience

Atlan
Product Engineering Intern • Sep 2022 – Present

• Working on [Atlan Insights AI]: A prompt based AI experience developed for Atlan's own SQL query editor that data engineers can use to query data across various connections and databases.
• Built the [Google Sheets Addon] for Atlan from scratch that allows data analysts to pull in column and lineage metadata for enrichment.
• Wrote foundation code for [Atlan's Github dbt Action] that allows data engineers to easily see the downstream impact when they make changes to dbt models on Github.

Social3
Front End Developer Intern • May 2021 – Aug 2022

• Refactored entire codebase of product to NextJS. Styled and developed using TailwindCSS, set up Web3 related content with Wagmi, Ethers, and RainbowKit.
• Setup feed page with Lens Protocol, Arweave and Alchemy in order to create posts as transactions stored in the blockchain. Handling and managing the product front-end.

My Education

B. Tech. in Computer Science and Engineering
Techno India University, West Bengal
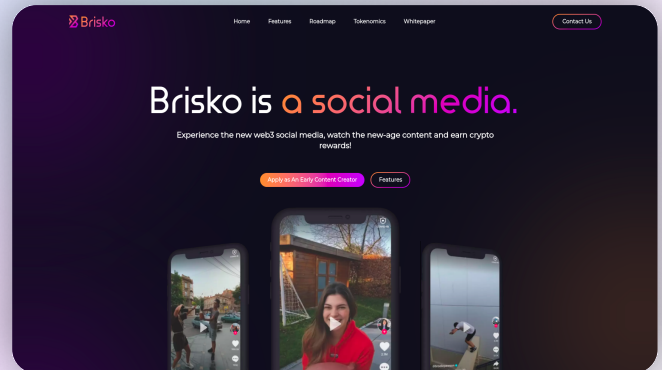

2022 – 2026

My Projects

Check out some of my popular and experimental projects that I have made during my journey learning how to develop beautiful and interactive things on the web.

Brisko
NextJS • Tailwind • Google Sheets API • February 2022

So this website was developed for one of my clients. They're building this app called Brisko. Brisko is a web3 based social media platform for new-age content and earning crypto rewards... **See Project**.

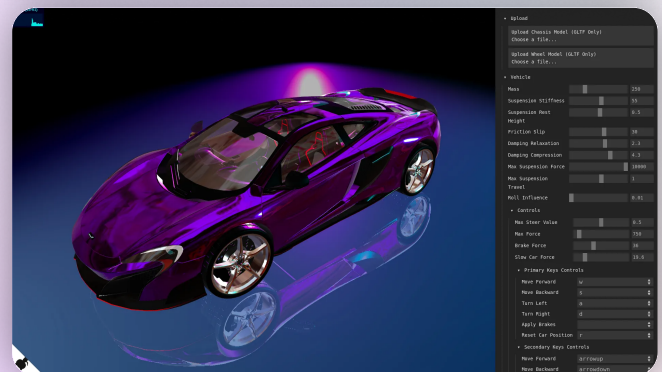

Raycast Vehicle Engine
ThreeJS • CannonJS • JSZip • July 2021

Simply upload your favourite car's chassis model and car's wheel model and the RV Engine would automatically create a car that you can easily drive using WASD keys directly on your browser... **See Project**.

There are a many more cooler projects that I have listed on my portfolio, **check 'em out!**

Recommendations

Here are some of the beautiful things that the people that I admire said about me. I couldn't fit all my recommendations here, you can **read more on my linkedin profile**.

Naveen Garg
Lead Software Developer at CuriousJr • Indian Institute of Technology, Varanasi

I have worked with Jaagrav for quite sometime and enjoyed it thoroughly. He is a quick learner who does his task/projects diligently and always on time. He also goes beyond the assigned task and and tries to bring more creativity in the ongoing projects... **More on LinkedIn**.
